**Kindergarten Enrichment Program
at the
Danvers Community YMCA**

The YMCA is the country's largest provider of school age child care programs. The Kindergarten Enrichment program at the Danvers YMCA offers a "wrap-around" schedule to meet the unique needs of the school age child.

Kindergarten Enrichment builds on children's natural desire to learn new skills and become self-reliant. Getting along with others, sharing, taking turns and working in a group are skills needed to succeed. Our program offers exciting and challenging activities, helping Kindergartners achieve new skills in mind and body. Each child will develop to his/her fullest potential focusing on the four core values of caring, honesty, respect, and responsibility.

Kindergarten Enrichment is more than "babysitting." Each day is carefully planned to achieve a balance between academic skill building and a child's natural desire to explore and play. This program is a positive alternative to morning and/or afternoon television.

Parents without child care needs may wish to enroll their child so that s/he can reinforce academic skills while having fun.

Licensed by the MA Department of Early Education and Care (EEC). Enrollment is limited. We achieve a nurturing environment where every child will feel welcome and grow through their experiences.
